

# My Friend

## Steve Miller Band

So you think you know just what goes on inside your head, my friend  
There is so much more than you and I can comprehend  
Things that make you laugh, things that make you cry  
Let you love when you feel like you wanna die There's no answer to the questions that we find inside, my friend  
But when we start to wonder why, we wind up further behind, my friend  
All we see has always been shown  
But there's so many things that I've never known So you think you know, my friend  
But you don't know, my friend, my friend  
You think you know but you don't know All for one and one for all  
It's everything or nothing at all  
Listen, my friend you don't know  
No, my friend you don't know
