

Great Day

The Psychedelic Ensemble

Hark, the morning sunrise sings
See the glory of the light
And for all the new day brings
An end to our darkness and to our plight
Yesterday is gone, it's through
The past has flown away
All you thought and all you knew
Have turned the other way
This great day
Hark, the sound of promise rings
And our spirits now alight
Leave behind the dark and sing
A new day begins
embark in the light
Yesterday is gone, it's through
The past has flown away
All you thought and all you knew
Have turned the other way
This great day
Come see the day
See the sun rise and the new morning sky
Come soar away
Spread your wings and fly
We'll reach the sky today
Great day
Now freedom reigns
Take your wings and fly
Higher than high today
Great day
Yesterday is gone, it's through
The past has flown away
All you thought and all you knew
Have turned the other way
This great day
