

# Dystopia

## Kreator

Welcome to the coldest age of darkness  
Millennium deprivation, deception and deceit  
Feared in presence, loathed within their absence  
Feed the dogs of war  
To keep a fragile peace All hail dystopia  
Your parasite messiah never comes  
All hail dystopia  
God has died when war drags on and on Pseudo truth, perversion and religion  
Disorder separates and scatters  
shepherds from the sheep  
Tragedy and suicide decisions  
Destroyers are not saviours in wartime misery All hail dystopia  
Your parasite messiah never comes  
All hail dystopia  
God has died when war drags on and on Gehena abomination  
Crypts under the sun  
Sacrifice the lives of those dead armies  
Marching on and on. All hail dystopia  
Your parasite messiah never comes  
All hail dystopia  
God has died when war drags on and on
