

Your Way

Paul McCartney

I like it, please don't take my heart away
It's happy where it is, so let it stay
You gave me love, you gave me what I wanted
You gave me love your way I've seen it shining from the furthest stars
Like Venus saw it on the way to Mars
You gave me love, you gave me what I wanted
You gave me love your way Your way is strong
Your way is right
Your way is mine tonight I like it, please don't take my heart away
It's happy where it is, so let it stay
You gave me love, you gave me what I wanted
You gave me love your way Your way is strong
Your way is right
Your way is mine tonight Your way is strong
Your way is right
Your way is mine tonight You gave me love your way
