Vanishing Light

[In Flames](#)

A vanishing light
The end of a compromise
In fury and rage
A dream will diminishBehind enemy lines
Learn to survive
Find a way to clone
Make friends and a place to call homeTake a picture and jump before we crush
Take a picture and jump before we crushSlide away
Learn your ways and fire when ready
This is the race to no-man's land
But who knows the directionYou're on the easy route
Money up front, there's no doubtTake a picture and jump before we crush
Take a picture and jump before we crushSlide away
Learn your ways and fire when ready
This is the race to no-man's land
But who knows the directionIt's so, so sad, but pay no mindTake a picture and jump before we crush
Take a picture and jump before we crushSlide away
Learn your ways and fire when ready
This is the race to no-man's land
But who knows the direction
