

# Too Soon to Know

**Kyle Fischer**

It's too soon to know if I can forget her  
My heart's been broken in too many pieces  
And it's too soon to know  
Time passes slow, will I ever know  
If I can forget her and not let it show  
But it's too soon to know  
News travels fast when a love affair ends

People keep asking what happened to them  
But it's too soon to know if I can forget her  
My heart's been broken in too many pieces  
And it's too soon to know  
My heart's been broken in too many pieces  
And it's too soon to know
