Where's the Robot?

Tub Ring

Automation
How much longer does the public have to wait
How many years did it take God to create
Robots
Where's the robots?
Clones of myself
My kids
My destiny
Metal organs for the while
I can't help but smile
Christ was not an only child
I can't help but smile
Automation
What's the point in achieving only you
Where's the top of what a man could hope to prove
Robots
Where's the robots?
Clones of myself
My kids
My destiny
Metal organs for the while
I can't help but smile
Christ was not an only child
I can't help but smile
