

# Goin' Thru Changes

Ledisi

I wish that I could stay  
But stayin' here confuses me more, so I'll go  
'Cause there's someone else who cares for me like you do  
You are my friend, and I don't wanna cross the line  
It's so easy to make you mine  
I keep pushin' you away  
'Cause you give me what I miss at home  
I'm goin' through changes  
And how do I let you go?  
My mind is goin' through changes, goin' through some changes, yeah  
And I can't let him go  
Please don't touch me there  
Temptation wants to rule me  
I can't do what my body is callin' out for  
I'm so confused  
You know what I like, and you wanna give me all of you  
And I think about it, too  
But I keep goin' through these changes  
'Cause there's so much that I miss at home  
I'm goin' through changes  
How do I let you go? I gotta get it together, ooh, ooh, ooh  
My mind is goin' through changes  
And I can't let him go  
I know what you want, I know what you want  
Everything about us will change, it's gonna change  
Everything I feel says stay here with you  
I wanna stay here with you  
I don't really know what to do  
I don't know what to do  
I can't get nothin' at home, nothin'  
The more I think about it, I'm so confused, so confused  
I'm goin' through some changes  
I'm goin' through changes, and how do I let you go?  
My mind is goin' through changes, some changes  
And I can't let him go  
I'm goin' through changes, don't know what to do, don't know what  
How do I let you go?  
My mind is goin' through changes, goin' through some changes  
And I can't let him go  
I'm goin' through changes, goin' through some changes  
How do I let you go?  
My mind is goin' through changes  
And I can't let him go  
I'm goin' through changes
