Live Now

Nas

Live now niggas
There's no promise of a second time around
Put it down wit' ya's
(Live)

Live now there's no reason

Why shouldn't everything is up to you

All you gotta do is just

(Live)

Live now we spinnin'
Not under the ground yet
We enjoyin' every second, yo
Live now don't forget to bro, yea
'Cuz I promise you'll regret it bro
Picture my last days it'll be so grim
My daughter at my bedside, respirator in me
Eyes dilated looking skinny trying to smile
Try to say something the whole room would quite down
Just to hear my last words, tears balled down my facial

Why fear anything? It's now to late to
I'm dreaming of a time I was silked out
At the peak of my career but I always choked out
Leavin' mad money on the table at crazy amounts
I would hit the scene for a second and bounce
Admit I did live a little bit sweet pickled dick
Freaks licked on it lips I dripped on it
Sex I shot pearl necklaces on necks and tits
Traveled half the world wish I traveled the rest of it
From QB to Mecca kid so if you knew me
You'd be proud to say I left you with enough memories

To resurrect me with
So live now nigga
Live now niggas
There's no promise of a second time around
Put it down wit' ya's
(Live)

Live now there's no reason why shouldn't

Everything is up to you

All you gotta do is just

(Live)

Live now we spinnin' Not under the ground yet We enjoyin' every second, yo Live now don't forget to bro, yea 'Cuz I promise you you'll regret it bro Doctor Kravitz, you have a visitor in the main lobby Doctor Kravitz, a visitor in the main lobby Hey, hey, hey, how you doing now? It's been a long time since you came through to see your sis You know I love you I've been a fan since Genesis Gotta respect you 'cuz you never tried to smash Since we met a while back and your style was mack Now I see you're a man after all you been through A standup dude held me down after Sekou Need more brothers like you in the hood Would have wifed you if I could But the white cells in my blood were no good Said I had it ten years but I was just a carrier I thought, ?Me a victim? Could never be my character"

It's ill Se' passed the way he did, didn't know how to tell him Just happy it didn't get in our kid But all the things I did was the flyest Experiences were priceless

Remember days of diamond cuts Nugget rings, clubs in Queens, Jetta cars Use to love them things, Barbados, Belize

I stayed overseas shoppin' sprees Credit cards, pockets of G's Left the hood phattest cribs To platinum from silver came back Bitches callin' me the black Liz Taylor Imagine that, Rob me? My nigga would kill ya'

They knew the rules all the planes I flew All the niggas I ran through, lotta unprotected sex Don't know where it came from

Grimy niggas, rich niggas damn it ain't a game son From the Cayman Islands from the Virgin Islands Gucci suitcases a chick did it after screw faces Critics and fans they need to get a life

You doin' the right thing settle down get a wife, now I grew with you so you make me proud And most of all you gotta live now Live now nigga

There's no promise of a second time around

Put it down wit' ya's (Live)

Live now there's no reason why shouldn't

Everything is up to you

All you gotta do is just

(Live)

Live now keep spinnin'
Not under the ground yet
Keep enjoyin' every minute, yo
Gotta live it up to the limit, yo
'Cuz I promise you'll regret it bro

Son, come close
Let me talk to you
I got music
Put it out to the world
Let 'em hear it
An' look out for lil' me
One
