

David

The Strumbellas

Hey hey hey
We we're out way past sun down
Hey hey hey
We we're all so scared to come down
Maybe if we just leave here alone
We'll be okay
Hey hey heyDavid won't you let me know if there's anything to say
We're a long way from home
And everything's strange
David won't you let me know if there's any other way
We're out on the road
Nothing's okay
Nothing's okay
Oh, except for this night
Nothing's okay
Oh, except for this nightHey hey hey
A Northern sky full of coyotes
Hey hey hey
We're in the basement feeling low
Maybe if we just leave it alone
We'll be okay
Hey hey heyDavid won't let me know if there's anything to say
We're a long way from home
And everything's strange
David won't you let me know if there's any other way
We're out on the road
And nothing's okay
Nothing's okay
Oh. except for this night
Nothing's okay
Oh, except for this night
