

I Am Legend/Out For Blood

Arch Enemy

I am after you
A shadow on the hunt
Don't turn around
I am right behind you I will get to you
And take you down
Tear your insides out
Crush your soul I am out for blood
Out for your blood I am harder than steel
Break your will
Waiting all my life
To kill I will get to you
And take you down
Tear your insides out
Crush your soul I am out for blood
Out for your blood I can smell your flesh
I can taste your sweat
I can sense your fear
I am right here I am out for blood
Out for your blood Out for blood, out for blood
Out for blood
Out for blood, out for blood
Out for blood
