Pollock

You think I'm getting high
When you're looking at me
Through your computer screen
A girl that looked just like sin
You look into my eyes
And I don't know how
A bomb about to explode
Putting up a front
Arbitrate for the rest till sunrise
Show other spaces other girls
Then go away
It's not the same I'm gonna take off those insane curtains
I'll try to feel things you did last night
Everything is anything is what you said
Insanity girl My love
My ahh And a teenager can't
Keep a secret like this
He just doesn't know how
Needs to stop pretending
He can't make it all up
Heard it all before
Try to be more serene
Watching Gallo films
Counted on you being a close friend of mine
A breakfast would be a victory
Don't wanna feed the enemy
