

Somebody (To Do That For)

Ilene Weiss

Point 'em out the fireworks.
Give 'em a red carpet tour.
Find where some secret nightspot lurks.
I found someone to do that for.

Stand back and receive the rays.
Watch me glow as out they pour.
Warm up the world that meets my gaze.
I found someone to do that for.

Somebody to do that for
Somebody to do that for
Somebody to do that for
Somebody

Miles or crowds away from me
or with me naked on the floor.
I'm stronger now for all, you see,
I found someone to do that for.

Somebody to do that for
Somebody to do that for
Somebody to do that for
Somebody

When you're ready, things will come.
I believe that more and more.
Yes, I'll go by that rule of thumb.
I found someone to do that for.

Somebody to do that for
Somebody to do that for
Somebody to do that for
Somebody
