Party Dance

Ed Shepp

Party and bullshit, party and bullshit (x2)
Posted the mall like who?
I don't have the air I don't like you
Three four rose and they're all like uuu
I don't have a ball like cowboys do
I do what I want when I want ya
Unlike you and tonight I'll fuck two
What it do, what it don't, what they do, what they don't
Baby just jump, just jump in the ...
Baby let's ride, big girls summon yo freaky friends, and freak off tonight
Baby that's right cause I'm ready to motherfucking party all nightYou look like you're boss, so get on the floor, show me what you came to do
Cause I wanna rock with you
Why don't you get out your chair, let's move over there
Touch me like you ain't scared, cause I'm about to touch you
Everybody get up with me
You got that fire yes you do
Let me show you everything I can do
Let me show you
(x2)
You could rock my party, you could rock my party, you could rock my party
You could rock my party, you could rock my party, you could rock my party
Everybody get up with me
Let me give you a fair warning
I dance like I want it cause I get up on it, and I know you want it
Just do the thing that you do, I need to see you, c'mon and get into it, let's keep it moving
Everybody get up with me
You got that fire yes you do
Let me show you everything I can do, let me show you
(x2)
You could rock my party, you could rock my party, you could rock my party
You could rock my party, you could rock my party, you could rock my partyEverybody get up with me, and dance, dance like you got it going on
It could be a fast or slower song, don't matter if you're right or wrong
And dance, dance like you're dancing by yourself
Don't think about nobody else
See you did it because of what you felt
And dance
Everybody get up with me

Let me give fair warning I dance like I want it cause I get up on it and I know you want it
Just do your thing like you do
I need to see you, c'mon and get into it, let's keep it moving
You could rock my party, you could rock my party, you could rock my party
You could rock my party, you could rock my party, you could rock my partyYou got that fire yes you do
Let me show you everything I can do, let me show you
You got that fire yes you do
Let me show you everything I can do, let me show you.
