

Worm Infested

Cannibal Corpse

Enter the graveyard, searching for a female corpse
Dead for thirteen years the perfect whore to fill my need
Dig her body up, crack open gruesome tomb
Ceremonial, covert necrophilia Why must I masturbate at the sight of maggots
That are crawling on her face?
Drawn to the coffin's stench that holds an impure
Wench, inhumanity, half skeletal remains Insatiable desire to inseminate
Swarm a parasitic plague enables me to emulate
A state of constant disarray Worm infested, worm infested, worm infested
Worm infested, worm infested, worm infested Chew the bitches fuckin' head
Eat her fetid skin and relish in the violation
Tear tissue from the bone as these actions go
Unknown, vicious cruelty Vile distal cruelty
Snapping bones in two, defiling cavities continues
Fierce repulsive fantasies enables me to emulate
A state of constant disarray Worm infested, worm infested, worm infested
I must fuck her worm infested, worm infested cunt Excoriate, disseminate, demoralize, to sodomize
Excoriate, disseminate, demoralize, to sodomize Desplicable degradation, excoriate her
Inimical depredation, disseminate her
Ignominious domination, demoralize her
Presumptuous defecation to sodomize her Why must I masturbate at the sight of maggots
That are crawling on her face?
Drawn to the coffin's stench that holds an impure
Wench, inhumanity, half skeletal remains Insatiable desire to inseminate
Swarm a parasitic plague enables me to emulate
A state of constant disarray Dead for thirteen years
The perfect whore to fill my need Desplicable degradation, excoriate her
Inimical depredation, disseminate her
Ignominious domination, demoralize her
Presumptuous defecation to sodomize her Worm infested, worm infested, worm infested
I must fuck her worm infested, worm infested cunt Worm infested cunt
