

# Getaway Car

[Ron Sexsmith](#)

Well I believe it's time we do this call of fair  
Doesn't seem to matter where we are  
'Cause you can read my mind and soon you will be there  
Waiting in the getaway car And even though I've been lost time to make you want to ride  
Wish you wouldn't take it so hard  
'Cause we'll be outlaws then like Bonnie and Clyde  
Speed off in the getaway car Getaway car I love you  
Let's get away far from here  
We can watch it all disappear in the rearview mirror Getaway car  
Getaway car Remember when the songwriting circle nearly brought me down  
You seen the look all over my face  
And you instinctively knew to pull the car around  
And get me the hell out of this place Getaway car I love you  
Let's get away far from here  
We can watch it all disappear in the rear-view mirror Getaway car I love you  
Let's get away far from here  
We can watch it all disappear in the rear-view mirror
