Heart Attack

Low vs Diamond

All you pretty people stand there
Let them do your nails
Doing nothing, saying something
Never seems to fail
But our guards are down, defenceless
And our walls have cracked
So my heart is beating faster
Than a heart attack
Kiss the way we were goodbye
Goodbye and farewell
First we live but then we die,
Goodbye, goodbye...
So they whisper secrets to you
That I know you hear
All the thoughts that rush inside you,
Never seemed so clear
You should write a book about it
You should start a war
You should tear your eyes out of you
As they look for more
Kiss the way we were goodbye
Goodbye and farewell
First we live but then we die,
We die, oh, ooh...
Pretty people standing by
We pain, we pretend
And we try and act surprised
As we watch the world end...
All you pretty people look at me
All you pretty people stare at me
But our guards are down, defenceless
And our walls have cracked
So my heart is beating faster
Than a heart attack...
Heart attack...(x3)
Kiss the way we were goodbye
Goodbye and farewell
First we live but then we die,
We die, oh, ooh...

Pretty people standing by
We pain, we pretend
And we try and act surprised
As we watch the world end...
Kiss the way we were goodbye,
Goodbye, goodbye...(x3)
Kiss the way we were goodbye,
As we watch the world die...
