Deeper Than Life

Shadow Gallery

On the run from
Suicide
Love breeches
Temptation
On the edge boy
What's inside
You better look
You better run and hide
Storms coming
A hurricane
Tear the roof from the
The foundation
Crystal ball smashed again
It's all there in the balance
HangingWrong time to not regret your actions
These are dangerous roads that we travel tonight
I'm tuning into you your eyes are faintly glowing
Can't you see the truth my mind is deeper than life
It's a strange dream and I know you're in it
Clinging to a rainbow by your fingernails
I'm shining bright as a star my thoughts become electric
Cause my soul is alive
It's deeper than life
Than lifeNo time
For real life
You're heading
For deep trouble
Star tripping
Red line
All engines
At full throttle
Lost balance
On such a dream
Wasted love on your
Precious money
Look around
Time to scream
You hit the skids
At the speed of light nowFill all of that emptiness with the blood I've shed

It's the spirit of life
Don't build your dreams on the treasures of man
They'll drag you away
It's a deadly lieSad song why don't they ever listen
It's the gift of love that helps to keep us alive
You miss the point again and it's your last horizon
Can't you see the truth my mind is deeper than life
I'm a strong man yes I can see the future
And it's good or bad and nowhere in between
You can't just spin the wheel you've got to ride on lightning
Cause your soul is alive
It's deeper than life
Than life
