Close (Demo)

Lewis Watson

grab your coat and don't forget my guitar,
just as soon as I find the keys to my car,
we can drive until the sun becomes stars,
just you and I until the dark
it's not like we have to see the whole world,
just as soon as no-one knows who we are,
we can stop or we can make a new start,and you need to know,
that whatever brings you down,
it's not worth your time,
ooohhhh, forget it all.
just forget it all, just forget it all...I don't care where we go,
just keep me close,
where there ain't nothing to hold me from you,
just keep me close,
oh, won't you keep close?In the morning we can open our eyes,
and just lie there 'till we're used to the light,
spend a day without a single goodbyeand you need to know,
that whatever brings you down,
it's not worth your time,
ooohhhh, forget it all,
just forget it all, just forget it all.I don't care where we go,
just keep me close,
where there ain't nothing to hold me from you,
just keep me close,
and I don't care what comes next,
or what life throws,
just put your hand in my hand,
and never let it go,
darling won't you keep me close?and just forget it all,
and just forget it all,
and just forget it all,
ooohhhh,
forget it all,
and just forget it all,
and just forget it all,I don't care where we go,
just keep me close,
where there ain't nothing to hold me from you,
just keep me close,
and I don't care what comes next,

or what life throws,
just put your hand in my hand,
and never let it go,
darling won't you keep me close?
