

Some Sort Of Creature

Awolnation

I just saw...
A..
Sort of... Gypsy..
Hippie lady...
With her daughter.
And uhh..
They were both carrying some sort of like...

Rodent..
That had a tail
That looked like wood
And I thought that they were carrying wood
But it turns it turns it out
It was some some sort of like creature
And I have no idea what it was..
It really blew my mind.
