# My Star

## Halfway Deserted

You are a star up in the sky
I am a boy who wishes he could fly away
But with no wings, I'll stay earth bound
I'll take the days as they come and go
Remember all of the times I said I love you
I need you right now

How does it feel to be the only star
That's shining in my sky tonight?
How does it feel to be so far away from me?
And I couldn't count the miles
Keeping me from holding you tonight
But it's alright, you're still my star

If I had another chance
I promise I would never look back on those days
Cause if I never knew your name
I will still be just the same

How does it feel to be the only star
That's shining in my sky tonight?
How does it feel to be so far away from me?
I couldn't count the miles keeping me from holding you tonight
It's alright, you're still my star
