

# Weightless

## Over It

Bent out of shape, we make our way straight

I would never take a chance on it

If it didn't paralyze me completely  
I wouldn't give it all up if it meant, I'd never feel so weightless  
Sure you think it's all fun, but games are all I've won in this life  
Rebuilding the puzzle I've found, scattered all around  
I invent myself with every breath

To take a step, I look ahead

And size up anything that makes me tremble
