

# When You Come Down My Way

## Eli Young Band

When you come down my way here I hope you stay

Maybe for a while, not just a day, yeah

When you come down my way.....I haven't seen you in so long, there's a lot to get caught up on

Pull up a chair, pour a drink that's strong

I haven't seen you in so long.....When you come down my way leave behind all those rainy days

You know I love to see your face every chance I get.....I hear you're doing fine you went to live your life  
and I lived mine

You've got friend if life gets unkind

I hear you're doing fine.....When you come down my way leave behind all those rainy days

You know I love to see your face every chance I get.....\*\*guitar solo\*\*You can always count on me if there's  
anything you need

Someone to talk to or just a soul to feed

But, you can always count on me.....When you come down my way leave behind all those rainy days

You know I love to see your face every chance I get.....
