

Try It Baby

Marvin Gaye

Now you're moving on up, pretty baby
You're leaving me behind
Everybody seems to love you
Oh, you're doing just fine, fine, fine
But take away your good looks
And all your fancy clothes
Why don't you just
(Try) try it, baby
(Try) try it, baby
(Try) try it, baby
(Try) try it, baby
You'll see

That nobody loves you but me (nobody but me) Now, you tell me that you're so busy, pretty baby
You ain't got much time
Oh, how well I remember
When all your time was mine, mine, mine
Well, move on back cross the track, baby
Where you came from
Why don't you just
(Try) try it, baby
(Try) try it, baby
(Try) try it, baby
(Try) try it, baby
You'll see

That nobody loves you but me (nobody but me)
Nobody loves you but me (nobody but me) I really want to hold you, pretty baby
In my arms again
But I can't get close to you
For all your loving friends, friends, friends
But take your name from the bright lights, baby (take it from the lights)
And tell me that you are all through (tell them you are through)
Come on and
(Try) try it, honey
(Try) try it, baby
(Try) try it, sweetheart
(Try) try it, honey
You'll see that nobody loves you but me (nobody but me)
I want you to (try) if you think I'm lying (try)

If you don't believe me, think I'm jiving
