

Am I Keeping You?

Mainstay

Give me one more chance tonight
To keep you waiting for nothing Give me one more chance tonight
To keep you waiting for nothing
And make you stay here in this place
Where you are only what they say you are You can save the lie, we are the ones
We are the ones who've seen the other side
Say our own goodbyes, leaving the world
Leaving the world and all our cares behind Give me one more chance today
To keep you sitting in one place
Riding on the fence you've made
You're only partly dying this way, this way You can save the lie, we are the ones
We are the ones who've seen the other side
Say our own goodbyes, leaving the world
Leaving the world and all our cares behind Am I keeping you from life?
Or am I keeping you alive?
Am I keeping you from life?
Or am I keeping you alive? We are the ones, we are the ones
We are the ones, we are the ones
We've seen the other side
Say our own goodbyes, leaving the world
Leaving the world and all our cares behind We are the ones, we are the ones
We are the ones, we are the ones
We are the ones, we are the ones
