Hope Is My Invention

Tim Miser

Those who bend down at My river will never thirst again, will never thirst again
All who sit down at My table their lives will not end, their lives will not end
Who excepts this invitation will hear My voice again, will hear My voice again
They will have my conversation and know Me as their friend, and know my as their friend

But, men search miles in all directions, they search miles and miles and miles
And are blind that what evades them is before then all the while

Hope is My invention, Loveâ€™s My composition, You are My creation, Talk to Me today
I loved you, I love you still, I died that you would know me if you only will
I chose you, I called your name reply and you will never be the same

Who asks for illumination will not go without light, will not go without light
They will have My inspiration and keep Me as their sight, and keep Me as their sight
Those who tire of lives unstable forever can depend on a future I defend
They will search with all their able and find Me in the end , yes theyâ€™ll find Me in the end

Men search miles in all directions, they search miles and miles and miles
And are blind that what evades them is before then all the while

Hope is My invention, Loveâ€™s My composition, You are My creation, Talk to Me today
I loved you, I love you still, I died that you could know me if you only will
I chose you, I called your name reply and you will never be the same

I loved you, I love you still, I died that you could know me if you only will
I chose you, I called your name reply and you will never be the same

Hope is My invention, Loveâ€™s My composition, You are My creation
