

Love Will

[Trace Adkins](#)

When we can't find the time to spend
Bein' lovers and best of friends
When we can't seem to make it work
When we can't find the words Love will, love will, love will, love will There'll be times that we disagree
About the way things are supposed to be
And when we can't find the common ground
When we can't work it out Love will, love will, love will, love will Ashes to ashes and dust to dust
Earthly possessions turn to rust
And when the world won't recall our name
One thing will remain Love will, love will, sing with me now love will (love will)
Yeah love will, love will, love will
(Hey hey hey now) love will, love will Love will Love will, love will, love will, love will
