

# Low Life

## The Shuffle Demons

I've been on my best behavior  
My conscience is a little too clean  
My halo's just a little too tight now  
    I'm tired of the old routine  
So, baby, let's get down and dirty  
    Forget about right from wrong  
I wanna sleep in a cheap motel room  
    With nothing but the TV on  
We need a little of the low life  
    To keep our feet on the ground  
    Just a little of the low life  
    Sooner or later we gotta get  
    Down to the low life, yeah  
Well, I don't wanna talk religion  
    Don't wanna talk politics  
    I don't wanna talk at all, babe  
    I just wanna get my kicks  
    So c'mon, baby, let your hair down  
    You can chuck your pearls out the door  
    Just a little black lace and a smile on your face  
    We'll never need nothing more  
    We need a little of the low life  
    To keep our feet on the ground  
    Just a little of the low life  
    Sooner or later we gotta get  
    Down to the low life, yeah  
    I'm talking low, babe  
Now, baby, you don't wanna talk about your day  
    And you sure don't wanna hear 'bout mine  
    I'll meet you at the Notell Motel  
    Underneath the vacancy sign  
    We need a little of the low life  
    To keep our feet on the ground  
    Just a little of the low life  
    Yeah, sooner or later  
You gotta get down to the low life  
    Just a little bit of foolin' around  
    We need a little of the low life  
Oh babe, we need a little of the low, low life, yeah

Let's get down and dirty low, low life

Hey, we need a low low life

Just get down and dirty, baby
