

Lock the Doors

Get Scared

Lock the doors,
And board the windows,
So that nobody knows,
Where we are,
We're hiding from the world, Take me with you,
Because I'm floating down a rabbit hole,
Ripper guide me,
And let me sail my spirit home, Twisting silence,
Into words,
Sing with me,
Spill your secrets,
Sing with me,
Sing with me, Lock the doors,
And board the windows,
So that nobody knows,
Where we are,
We're hiding from the world, Spirit sing,
Sing you song,
Sing your song for me,
Melody calls out for shadows,
Can't you hear them going on? Twisting silence,
Into words,
Sing with me,
Spill your secrets,
Sing with me,
Sing with me, Lock the doors,
And board the windows,
So that nobody knows,
Where we are,
We're hiding from the world, Stay with me soul,
So I won't be lonely,
Swallow hope,
So I won't go hungry, Lock the doors,
And board the windows,
So that nobody knows,
Where we are,
We're hiding from the world, Lock the doors,
And board the windows,
So that nobody knows,

Where we are,
We're hiding from the world,
