Please, please, please, please, please  
Won't you give your love to me, me?  
Please, please, please, please, please  
Won't you give your love to me, me?  
Please, please, please, please, please  
Won't you give your love to me, me?  
Please, please, please, please, please  
Won't you give your love to me, me?  
Are you gonna give me your love?  
Love would be enough  
Are you gonna give me your love?  
Love would be enough  
Are you gonna give me your love?  
Love would be enough  
Are you gonna give me your love?  
Love would be enough  
We need each other  
Come together as one  
Love would be enough  
Please, please, please, please, please  
Won't you give your love to me, me?  
Please, please, please, please, please  
Won't you give your love to me, me?  
Are you gonna give me your love?  
Love would be enough  
Are you gonna give me your love?  
Love would be enough  
Are you gonna give me your love?  
Love would be enough  
Are you gonna give me your love?  
Love would be enough  
We need each other  
Come together as one  
Love would be enough  
We need each other  
Come together as one  
You got to live  
You got to die  
So what's the purpose

Of you and I?  
 You want some passion  
 You can receive  
 And there ain't no question  
 In this I believe  
 You got to live  
 You got to die  
 So what's the purpose  
 Of you and I?  
 You want some passion  
 You can receive  
 And there ain't no question  
 In this I believe  
 You got to live  
 You got to die  
 So what's the purpose  
 Of you and I?  
 You want some passion  
 You can receive  
 And there ain't no question  
 In this I believe  
 You got to live  
 You got to die  
 So what's the purpose  
 Of you and I?  
 You want some passion  
 You can receive  
 And there ain't no question  
 In this I believe  
 You got to live  
 Oh, you got to live  
 We need each other  
 Come together as one  
 Love would be enough  
 We need each other  
 Come together as one  
 Love would be enough  
 Love would be enough  
 Are you gonna give me your love?  
 Are you gonna give me your love?  
 Are you gonna give me your love?  
 Are you gonna give me your love?  
 Are you gonna give me your love?  
 Love, love, love  
 Love, give me love

Love, love, love  
Love, give me love  
Love, give me love  
Love, give me love  
Are you gonna give me your love?  
Give me love  
Love, give me love
