## Sun God

## **Cut Copy**

Please, please, please, please Won't you give your love to me, me? Please, please, please, please Won't you give your love to me, me? Please, please, please, please Won't you give your love to me, me? Please, please, please, please Won't you give your love to me, me? Are you gonna give me your love? Love would be enough Are you gonna give me your love? Love would be enough Are you gonna give me your love? Love would be enough Are you gonna give me your love? Love would be enough We need each other Come together as one Love would be enough Please, please, please, please Won't you give your love to me, me? Please, please, please, please Won't you give your love to me, me? Are you gonna give me your love? Love would be enough Are you gonna give me your love? Love would be enough Are you gonna give me your love? Love would be enough Are you gonna give me your love? Love would be enough We need each other Come together as one Love would be enough We need each other Come together as one You got to live You got to die So what's the purpose

Of you and I?

You want some passion

You can receive

And there ain't no question

In this I believe

You got to live

You got to die

So what's the purpose

Of you and I?

You want some passion

You can receive

And there ain't no question

In this I believe

You got to live

You got to die

So what's the purpose

Of you and I?

You want some passion

You can receive

And there ain't no question

In this I believe

You got to live

You got to die

So what's the purpose

Of you and I?

You want some passion

You can receive

And there ain't no question

In this I believe

You got to live

Oh, you got to live

We need each other

Come together as one

Love would be enough

We need each other

Come together as one

Love would be enough

Love would be enough

Are you gonna give me your love?

Love, love, love

Love, give me love

Love, love, love
Love, give me love
Love, give me love
Love, give me love
Are you gonna give me your love?
Give me love
Love, give me love
