Most High

Jerzee Monet

Yo, if you don't know what the love means to me
Things change and rearrange, friends aren't friends anymore
People go behind your back to score on anything
Will we ever have peace? Someone tell me pleaseNow you will see on the block, kids playin' hearin' gunshots
Never phased by the crimes that they witness
Follow me and come and see how I got this wayYoung mama right there
Don't be cussin' at your kids right there
Put the right foundation right here, teach respect
So they can be, most high, most highMost high, most high, most high
Like an angel in the sky
Most high, most high, most high
Like an angel in the skyBrother why you act that way?
(Why you actin' that way?)
Call your girl woman not her name
Bringin' kids in the world unclaimed
You should know that don't make you a man at all, not at allYoung father out there, listen up
Don't abandon your seed out there, show we care
Let's get one thing clear, for real
Family should be, most high, held highMost high, most high
Like an angel in the sky
Most high, most high, most high
Like an angel in the skyIt doesn't matter where you are
You're still a shinin' star, for real
It doesn't matter where you're from
(It doesn't matter where you're from)
Let's give love to everyone
(Start showin' more love)Hustlers put down your guns, put 'em down
Self respect is the best weapon
Spread love show your real value
Set a true example by startin' with youSee them kids right there
Don't be shootin' 'round them kids right there
Gotta show there is hope out here
Train yourself you can be most highStart showin' more loveMost high, most high, most high
Like an angel in the sky
Most high, most high, most high
Like an angel in the skyIt doesn't matter where you are
You're still a shinin' star
It doesn't matter where you're from
Let's give love to everyone

Start showin' more loveMost high, most high, most high
Like an angel in the sky
Most high, most high
