Let It Go

Cherri Bomb

You never see my way
Pissing on my flame
I'll be the one left standingWith everything I do
It never pleases you
But I'll be the last one laughingListen
You're always missing
Blind to my vision
NoI just won't let it go
Just can't let it go
Just won't let it goNo matter what it's in my bloodI just won't let it go
Just can't let it go
Just won't let it goIt won't die this dream's alive
And I won't let it goI thought I'd try your way
But I went down in flames
I should've seen it comingLife is more than siting back
Oh I'm on the attack
And now I'm off and runningListen I'm on a mission
Done with ass kissing
NoI just won't let it go
Just can't let it go
Just won't let it go
No matter what it's in my bloodI just won't let it go
Just can't let it go
Just won't let it go
It won't die
This dream's alive
And I won't let it goIt's in my blood and I won't give up 'cause it's running through my veins
It's in my blood 'cause it's all I want and I won't go down in flamesIt's in my blood and I won't give up 'cause it's running through my veins
It's in my blood 'cause it's all I want and I won't go down in flamesIt's in my blood and I won't give up 'cause it's running through my veins
It's in my blood 'cause it's all I want and I won't go down in flamesI just won't let it go
Just can't let it go
Just won't let it goNo matter what it's in my bloodI just won't let it go
Just can't let it go
Just won't let it goIt won't die this dream's alive
It won't die this dream's alive
And I won't let it go, let it go
