So Long

Lake Street Dive

So long
Why you gone away?
For so long?
Why don't you just stay?
Where you belong?
And then we'd never have to say, so long.So long
The days while your away, feel so long.
I'm wasting away, while you are gone.
I wish we never had to say, so long.So wrong
You know it always feels, so wrong
To say goodbye to you, for so long
What kind of universe would keep me away
From someone that I have loved for...So long
The years they're slipping by me
And I'm still so alone
The nights that I have cried seem so long
Oh I don't know how to say goodbye
So I'll just say...
