

# Monkey Trick (Single Version - Live)

## The Jesus Lizard

He's gone in her lips, a glow from her lip  
Ignites the shapes she sees in the shade  
Only a little is used to come to a close  
Only a little is used to come to a close Tonight at the knife stick up place  
I spoke as a child and choked on that line  
Then I saw them, then I saw them  
Then I saw them, then I saw them What are they doing outside?  
What are they doing?  
What the hell are they doing outside?  
What are they doing? In so much brown and crap  
It's set in an odd light  
This one it stops right here now  
I think it's trouble you invite In so much as they  
Don't know what's right  
This one it stops right here now  
I think it's trouble that you invite An absurd gag, a monkey trick  
An Irish bull, a childish joke  
Ow ow ow ow ow ow ow ow  
Ow ow ow ow ow ow ow ow Tonight at the knife stick up place  
I spoke as a child and choked on that line  
Then I saw the, then I saw them  
Then I saw them, then I saw them I know they have them down there  
I've seen them down there  
Body parts all over this town  
What are they doing?
