Troubles

The Beta Band

It's about time that we fell in love
You know that I've been trying
It's about time that we had a laugh
You know that I've been crying
Too many people, too many troubles
Too many mouths are lying

If everybody laughed for just one day,
You know, that'd make me happy

Too many troubles, too many troubles
Don't know how we live so long
Too many troubles, too many troubles
It's time for us to live and laugh and laugh and laugh and laugh...

It's about time that I said 'Hello' to all those lonely people
When I was at the back who could never talk back through all the tears and sadness
You never really know who's there beside you,
Who will be your comfort

If everybody laughed for just one day,
You know, that'd make you happy

Too many troubles, too many troubles
Don't know how we live so long
Too many troubles, too many troubles
It's time for us to live and laugh and laugh and laugh and laugh...
