

# Troubles

## The Beta Band

It's about time that we fell in love  
You know that I've been trying  
It's about time that we had a laugh  
You know that I've been crying  
Too many people, too many troubles  
Too many mouths are lying

If everybody laughed for just one day,  
You know, that'd make me happy

Too many troubles, too many troubles  
Don't know how we live so long  
Too many troubles, too many troubles  
It's time for us to live and laugh and laugh and laugh and laugh...

It's about time that I said 'Hello' to all those lonely people  
When I was at the back who could never talk back through all the tears and sadness  
You never really know who's there beside you,  
Who will be your comfort

If everybody laughed for just one day,  
You know, that'd make you happy

Too many troubles, too many troubles  
Don't know how we live so long  
Too many troubles, too many troubles  
It's time for us to live and laugh and laugh and laugh and laugh...
