

# Melodies

## Made In U.S.A.

I hear melodies in my head  
Find little notes in my bed  
I got songs tangled up in my hair  
I see piano keys everywhereMy heart is a beating drum  
Repeating my favorite song  
I hear Beethoven number. 9  
All the timeAnd it's kinda like do-re-mi  
About as easy as a-b-c  
Beautiful like a symphony  
I'm talking about you and me here[Chorus]  
I hear melodies in my heart  
Hear melodies in my head  
It was a little off key then you  
melodized me and I'm better than everI hear melodies in my heart  
Hear melodies in my head  
I had the beat abit wrong but  
I got a new song nowSo I put my headphones on,  
Plug into you  
Plug into you  
Boy you're my favorite song  
Plug into you  
Plug into youWoah-oh-ohYou're so wrong  
That it makes you right  
Keep me,wide awake at night  
I can't sleep now I know you're aroundI like listening and singing to every sound  
I love it when I hear your voice baby,  
Well baby I don't think we really got a choice  
Mozart is in the air,and I'm right hereAnd it's kinda like do-re-mi  
About as easy as a-b-c  
Beautiful like a symphony, yeah  
I'm talking about you and meOo-oh-oh[Chorus]  
I hear melodies in my heart  
Hear melodies in my head  
It was a little off key then you  
melodized me and I'm better than everHear melodies in my heart  
Keep the melodies in my head  
I had the beat abit wrong but  
I got a new song nowSo I put my headphones on,  
Plug into you

Plug into you  
Boy you're my favorite song  
Plug into you  
Plug into youWoah-oo-ohI wake up in the middle of the night  
Can't stop for the melodies that I hear,  
Melodies baby I hear melodies all the time,  
And I'm about to go crazyKeep on singing I'm about to see you baby,  
You're my melody  
And I - I hear melodies in my headI hear melodies in my heart  
Hear melodies in my head  
It was little off key then you  
melodized me and I'm better than everI hear melodies in my heart  
Hear melodies in my head  
I had the beat abit wrong but  
I got a new song nowSo I put my headphones on,  
Plug into you  
Plug into you  
Boy you're my favorite song  
Plug into you  
Plug into youWhao-oo-oo
