

Learn 2 Love

Harry Hudson

When the breathin' ain't easy
Just to tough to own
The life that you carry is hurtin' your bones
They're achin' , cryin' , bein' alone
You're only gettin' closer To the way back,
you should have,
been back before
When we hit the free way,
the tears hit the floor
You saw that we're younger,
you try and explore
We've all been there before You gotta know
There's something waitin' on the other side
A better road
Leadin' you to a paradise If you learn to love (X5)
(You can always fight for something)
If you learn to love
(If you gon live to know the truth)
If you learn to love
(Don't let 'em tell you that you're nothing)
If you learn to love
(You're not alone I'm right here with you) We're livin',
we're dyin'
So which will you own
A heart that's on fire,
or beaten and cold For you,
hit the heavens or crash to the core
Ya just can't take much more You're feelin' and feelin',
the emptiness roar
You're fightin' in motion,
now paid at the door So take that,
and strike back
and give what you're worth
And live how you deserve You gotta know
There's something waitin' on the other side
A better road
Leadin' you to a paradise If you learn to love (X5)
(You can always fight for something)
If you learn to love

(If you gon live to know the truth)
If you learn to love
(Don't let 'em tell you that you're nothing)
If you learn to love
(You're not alone I'm right here with you)And I know it's hard
Cause I wear the same scars
But the world is ours
If we open our heartsAnd I know it's hard
Cause I wear the same scars
But the world is ours
If we open our heartsIf you learn to love (X5)
(You can always fight for something)
If you learn to love
(If you gon live to know the truth)
If you learn to love
(Don't let 'em tell you that you're nothing)
If you learn to love
(You're not alone I'm right here with you)If you learn to love (X3)
