

Sex & Love

Faber Drive

Pumpin' on my sleeve
Heart that barely beats stallin'
Uh oh Floatin', facin' down
Sea of broken vows
Drownin'
Uh oh Blow after blow and I'm starting to see why
Better alone than be bruised by your dark side
Down to the bone you're the knife
That'll cut right through Sex and love don't feel the way I do
Sex and love's not real when it's from you Solely for effect
Mornin' make up sex is hollow
Uh oh Burnin' to the ground
House that used to stand so solid
Uh oh Blow after blow and I'm starting to see why
Better alone than be bruised by your dark side
Down to the bone you're the knife
That'll cut right through Sex and love don't feel the way I do
Sex and love's not real when it's from you Blow after blow and I'm starting to see why
Better alone than be bruised by your dark side
Down to the bone you're the knife
That'll cut right through Sex and love don't feel the way I do
Sex and love's not real when it's from you
Sex and love don't feel the way I do
Sex and love's not real when it's from you Sex and love don't feel the way I do
Sex and love's not real when it's from you
