Give up Now

Extreme Music

Tick tock
Watching time that we've got
Forever that we thought fade into the past
Tick tock
Watching hands on our clock
Speed around the spot
Never seem to end
But baby there's one bullet I've got
One more stone to slingshot
One more final stand
You me everything we could be
All the good we don't see
Is worth the scars we have
You could give up now
You really want to
Coz you want me to need you
I could give up now
I really want too
Coz i want to need you
Tick tock
Being brave at all costs
Still got hell to pay
Tick tock
Saying we're fine but we're not
Show the world a strong front
The walls are giving way
Baby just look up
The clouds are tear of your eyes
Fill them with
This is not goodbye
You could give up now
You really want to
Coz you want me to need you
I could give up now
I really want too
Coz i want to need you
You could give up now
You really want to
Coz you need me to want you

I could give up now
I really want too
Coz i need to want you

oh oh
Hold on
My love
My love
Hold on
Hold on
My love
Hold on
My love
My love
Hold on
Hold on
My love

You could give up now
You really want to
Coz you want me to need you
I could give up now
I really want too
Coz i want to need you

You could give up now
You really want to
Coz you want me to need you
I could give up now
I really want too
Coz i want to need you

Tick tock
Watching time that we've got
Forever that we thought fade into the past
