

# It's Getting Better [Man!!]

## Oasis

Shout it from the rooftops that you're here  
Even if it means nothing  
Make us realize all that we're here  
Do it in a wise teaching  
Wishing on a wave that soon appears  
Something about a life teaches  
You to build a castle in the sun Maybe the songs I sing are wrong  
Maybe the dreams I dream are gone  
Bring it on home and it won't be long  
It's getting better, man  
And what was that you said to me?  
Just say the word and I'll be free  
And while the stars are shining bright  
It's getting better, man  
And crashing in upon a wave  
It's coming up beyond the grave  
I'll light a fire in the sky  
It's getting better, man Build something  
Build a better place and call it home  
Even if it means nothing  
You'll never ever feel that you're alone Maybe the songs I sing are wrong  
Maybe the dreams I dream are gone  
Bring it on home and it won't be long  
It's getting better, man  
And what was that you said to me?  
Just say the word and I'll be free  
And while the stars are shining bright  
It's getting better, man  
And crashing in upon a wave  
It's coming up beyond the grave  
I'll light a fire in the sky  
It's getting better, man  
It's getting better, man
