Sixes

Helvetia

And you won't say, "I knew her when"
The time for that has come and gone
like the railway station
You won't say, "If I'd known that then,
I would not run, I would have stayed
Could have been okay"We lay around
We lay around
We lay around all of our lives
All of our lives, we lay around.This is the place we've built inside
A place for sixes, suns and cows
Little things like memories
Why was I scared of what I'd find?
Sibling trust, lover's dance
Laugh like old friendsWe lay around
We lay around
We lay around all of our lives
All of our lives, we lay around.
