Blue Diamonds

Rusted Root

And we go out on the world tonight

With our blue diamonds

That were once our fears

Pressing down on the townAnd we go out my love holding all our bets

Oh my lady resurrect this breath

On this hour of the night

We'll make it love, we'll make it love'Cause I found you now

And forever I won't waste this breath

Let time be by our side

It's now and never I won't waste this breathNow don't you wait I feel it in my hurt

Oh my lady you're the woman I search

To roll my heart

Roll my heart this way, hey, hey'Cause I found you now

And forever I won't waste this breath

Let time be by our side

It's now and never I won't waste this breathI remember a time, a little less tame

You rolled my heart home this way, this wayOn the world tonight

With our blue diamonds

That were once our fears

Pressing down on the townAnd we go out my love holding all our bets

Oh my lady resurrect this breath

On this hour of the night

We'll make it love, we'll make it love'Cause I found you now

And forever I won't waste this breath

Let time be by our side

It's now and never I won't waste this breath
