

# Liquor

## Superdrag

You never knew  
The things your beauty made me want to do  
As if you'd care  
As if you'd ever let me take you there I guess you'll never see  
What you could have had in me  
It never could be true  
Thing I only could've felt inside of you I saw your eyes  
I knew that you were gone, it's no surprise  
I kissed your face  
I didn't know it would invade your space I guess you'll never see  
What you could've had in me  
It never could be true  
Thing I only could've felt inside of you  
I guess that's true
