Some People

Rayvon

Some people like walkin in the rain
Some people like to get way on a plane
Some people like to party every night,
But all I wanna do
Is baby stay home with youSome poeple like chillin at the beach
Some people they don't practice what they preach
Some people like cruisin in their cars
But all I wanna do
is baby stay home with youAll I really wanna do
On days I'm with out you (without you)
You still linger on my mind
There is no substitution
You are where I wanna spend my time
BabySome people like workin day n night
Some people they are lookin for a fight
Some people they just dream there life away
But baby all I wanna do is baby stay home with youAll I really wanna do
On days im without you (without you)
You still linger on my mind
There is no substitution (no)
You are where I wanna spend my timeSome people they like workin day n night
Some people are lookin for a fight
Some poeple they like to dream there life away
But all I wanna do
Is baby stay home with you
