

# Magical

## Shifty

She's magical, magical  
The girl's got a spell on me, oh yeah, oh yeah  
She's magical, magical  
A modern day wizardry, oh yeah, oh yeah  
Now she's a heart stopper, jaw dropper for real  
Baby steals my breath with the sex appeal  
She's everything I ever wanted and more  
She makes me feel like a kid in a candy store  
An like a rabbit out of a hat, she's a disappearing act  
I wink inside the mirror and she always winks back  
I'm in room 32, you can come up an see me  
I make your bikini disappear like Houdini  
It's our time no time's better than now  
You can bite, scratch me an throw me around  
You might be the prettiest thing I ever saw  
Looking like that should be against the law  
She's just my taste got a face to match  
I said, "This is one girl I got to catch"  
You might be the one who could set me free  
So let work it out, work your magic on me  
She's magical, magical  
The girl's got a spell on me, oh yeah, oh yeah  
She's magical, magical  
A modern day wizardry, oh yeah, oh yeah  
Sexy girl, you got a spell on me  
You got me running up the street like a dog in heat  
You're such an inspiration, you got my heart racing  
Got me levitating with your sex education  
Tell me is it real or just my imagination  
Are you looking for love? Well, I'm over here waiting  
Baby on the real, can you feel the chemistry?  
No smoke an mirrors, I believe what I can see  
I believe in you, now could you believe in me?  
I feel the energy, you wanna be my fantasy  
Hey pretty girl come give me a kiss  
It ain't hard to do, it's as easy as this  
Put your lips to my lips, put your hands on my side  
Move your body closer and look into my eyes  
I got a heart made of gold an a bottle full of brew

The only thing I'm missing is you  
She's magical, magical  
The girl's got a spell on me, oh yeah, oh yeah  
She's magical, magical  
A modern day wizardry, oh yeah, oh yeah  
I say, oh yeah, oh yeah  
An' say, yeah, oh yeah, ohh  
She's magical, magical  
The girl's got a spell on me, oh yeah, oh yeah  
She's magical, magical  
A modern day wizardry, oh yeah, oh yeah  
Magical, magical  
So magical, magical  
Magical, magical  
So magical, magical
