

I'll Sleep When I'm Dead

The Wedding

verse 1:

if we go the distance we go all out
and if you force us to fight we go for the knockout
we haven't always been the same men

we are today

it took fire to purify us
what didn't burn is what remained

Chorus:

and if we run, then we run
but we won't be the same
leaving excuses for the weak
and if we run then we run
but we won't be the same

and we'll only have ourselves to blame

verse 2:

we are growing ever stronger
the more we die
the enemy will never take us
never take us alive
sometimes it's with our eyes closed
we find our sight
sometimes it's in the darkness
we see the light

Bridge:

today i stopped asking what it means and just believed
today i stopped asking what it means and just believed
you gotta believe; right now
and now the truth of it is we've already got all that we'll ever need
