

Party Up (feat. YG)

Destructo

It's YG 400!

Destructo! Where the bartender? Tell him bring more liquor

The only black person in here, bring more niggas

? made millions, ? made millions

I think it's easy to make millions Kick the party up

I keep bitches on a party bus

If flea fucking, don't talk to us

That's probably why we don't talk too much I want to party, I want to fuck

I want a model, no I want a slut

I want a model, no I want a slut

I want a model, no I want a slut I want to do all freaky things

I need a bitch that'll do them kinky things Where the bartender? Tell him bring more liquor

The only black person in here, bring more niggas

? made millions, ? made millions

I think it's easy to make millions Kick the party up

I keep bitches on a party bus

If flea fucking, don't talk to us

That's probably why we don't talk too much I want to party, I want to fuck

I want a model, no, I want a slut I want to party

I want to party

I want to party

I want to party

I want to party

I want to party

I want to party

No I want a slut Kick the party up

Kick the party up I want to party, I want to party, I want to fuck

I want a model, no, I want a slut
