

Recipe

Main Flow and 7L

Hold me like I'm a baby
I will always be safe in your arms
I'm filming and I'm dreaming
I'm humming my way to the stars
I can reach the stars from where I am
I can reach the stars from where I am
Tell me what is the recipe, secret of eternity
 No more love me or leave me
 Not a year not three or four
 Forever is in my heart with you evermore
 Stand by me I am your baby
 You will always be safe in my arms
 This season I don't think about reason
 I just wanna lose it and wish upon the star
 I can reach the stars from where I am
 I can reach the stars from where I am

Tell me what is the recipe, secret of eternity
 No more love me or leave me
 Not a year not three or four
 Forever is in my heart with you evermore
 We can take it far, to the morning star
 A thousand children laughing in your eyes
 You were made for me, baby can't you see
 The endless sky is filled with butterflies
 Tell me what is the recipe, secret of eternity
 No more love me or leave me
 Not a year not three or four
 Forever is in my heart with you evermore
 Tell me what is the recipe, secret of eternity
 No more love me or leave me
 Not a year not three or four
 Forever is in my heart with you evermore
